Subject: Re: team editing of glyphosate production and use

Dear Peter,

Thanks so much for your efforts. Apologies that we may have inadvertently processed a preliminary draft in our efforts to get as much as possible finalised before the meeting.

It would be helpful if you could review the below, and update us on when we may receive any that are still expected:

Being processed and/or in peer review:

01 Malathion 1.1, 1.2
02 Parathion 1.1, 1.2
03 Diazinon 1.1, 1.2
04 Glyphosate 1.1, 1.2 (new ver submitted 7 Feb), 1.3
05 TCVP 1.1, 1.2.

Still expected

01 Malathion 1.3
02 Parathion 1.3
03 Diazinon 1.3
05 TCVP 1.3

Best,
Kate

Subject: team editing of glyphosate production and use

Hi Kate,

I just saw that the pitiful early draft of the glyphosate production and use document is undergoing team editing. I just now completed the revised draft, which is not only actually organized, but includes more recent production volume data. I've uploaded it to IOPS, but have also attached it to this email. Please replace the one currently undergoing team editing with this one.

Thanks,

Peter
